SUMMARY

Full Stack .NET Developer with two years of experience in building scalable web applications using C#, ASP.NET, .NET Core, and Microsoft SQL Server. Skilled in React and cloud development in Azure, with expertise in API development, database design, and optimizing application performance. Proficient in adhering to best practices such as the Single Responsibility Principle (SRP) and other SOLID principles to deliver clean, maintainable code. A collaborative team player with strong attention to detail, creativity, and communication skills, focused on delivering high-quality solutions and continuously learning.

PROFESSIONAL EXPERIENCE

Revenue Solutions Inc. (RSI)   **Pembroke, MA**
Software Engineer   July 2024–Present

- Developed microservices using the MediatR framework and GraphQL for efficient data fetching between front-end and back-end services within a Service-Oriented Architecture.
- Collaborate with cross-functional teams throughout the Software Development Lifecycle to design, implement, and deliver scalable solutions that meet stakeholder requirements.
- Design UI components with a focus on accessibility (a11y) compliance, ensuring inclusive and user-friendly experiences.
- Participate in the peer review and pull request process to maintain high code quality, enforce best practices, and promote team collaboration.

PRIME Health Services   **Franklin, TN**
Application Developer   July 2022–June 2024

- Built and maintained a mailroom automation web application leveraging full-stack Microsoft technologies such as Azure DevOps, Blob Storage, Azure Functions, and Docker.
- Updated and supported both modern and legacy applications using ASP.NET MVC, .NET Core, React, TypeScript, SQL Server, and Git for project management and version control.
- Ensured consistent code quality and functionality through unit and integration testing with the Moq library and XUnit framework, while collaborating with cross-functional teams.

Nashville Software School   **Nashville, TN**
Full Stack Web Developer Internship   February 2022–July 2022

- 6-month, full-time, immersive web development bootcamp.
- Developed single-page applications using JavaScript (React, jQuery), HTML, CSS, and Bootstrap.
- Applied DRY, modular, and reusable code principles, leveraging OOP fundamentals and SOLID design patterns.
- Used GitHub Projects for project management and tracking.
- Built server-side applications with C#, .NET, and RESTful APIs.
- Designed solutions with mockups, wireframes, and ERDs for real-world business problems.
- Collaborated in team-based projects, enhancing communication and problem-solving skills while building practical, scalable applications.

EDUCATION

NASHVILLE SOFTWARE SCHOOL   **Nashville, TN**
Full Stack Web Developer Certification   July 2022

CHADRON STATE COLLEGE   **Chadron, NE**
Bachelor of Arts in Commercial Music Business,   May 2010
Honors: cum laude (GPA: 3.8/4.0)

TECHNICAL SKILLS

- **Front-End:** JavaScript, TypeScript, React (including Redux, React Query), Next.js, jQuery, Bootstrap, CSS, Material Design & UI
- **API:** GraphQL, REST
- **Backend:** C#, ASP.NET, .NET Core, .NET MVC, Entity Framework, SOA, OOP, SOLID Principles, CQRS
- **Databases:** MS SQL Server, MySQL, Redis, MongoDB
- **Code Quality:** XUnit, Moq Library, Jest, React Testing Library, ESLint, Husky, Prettier, SonarQube
- **Deployment:** CI/CD, GitHub Actions, Docker
- **Version Control:** Git, GitHub, Azure DevOps
- **Cloud:** Azure Key Vault, Azure Blobs, Azure Functions, Azure App Services, Azure Storage
- **General:** SDLC, Agile Methodologies, Jira, Confluence
